“You come up with your challenges, you talk through your challenges and you develop the tools to solve some of these problems, so you can now say I think I have the necessary skills. I use the knowledge and skills frequently, on a day-to-day basis.” African Participant

“This Programme has delivered more than I had hoped for and heard. The Lecturers/Professors have been extraordinary, vibrant and truly engaging and it has time and again surpassed my expectations. It afforded me the opportunity to embark on this life changing journey.” Caribbean Island Participant

“I came out of the programme with confidence and new mind set in dealing with the negotiations for compliance with international financial standards. Instead of trying to evade the issues we are now taking an active and forward approach in our consultations.” Pacific Island Participant
